Brittany England shuffler and the ER nurse forced me to wear a sling and to make me take a blood pressure cuff causing more injuries to my arm. They claimed nothing wrong with me and to breathe in and out causing more damage to my blood vessels and made rude remarks to and left me in a room by myself for 4 hours. My ehler danlos if one major vein is punctured I could die because my body is fragile and sensitive, they cause more harm and damage . Add more insults to me. I wasn't able to move my left arm any more because of her order and what Lynne law forced upon me too. I have hypermobility. They got mad at me and claimed that I was faking my pain and injuries so I could stay at the hospital and purposefully claim I was getting abused when I didn't live anywhere. The nursing board didn't do anything and claimed it was an employment issue. She purposefully put down a referral to asthma. I couldn't breathe all because everyone damaged my blood vessels due to the blood pressure cuff and the inflammation to the prednisone that Lynne Laws prescribed to me and not to mention it to the Ems on purpose.

I never received my medical records from the medical center and from the catawba valley family medicine Claremont, Nc after 2020. They made excuses and excuses and changed and added false information to my records to lose my workers comp case on purpose and exit out or delete my online records from me seeing it constantly. Medical records read my records and refused to give me my records and made excuses and stuff. Put false statements and claim I was pregnant but I never had a real life boyfriend or constant sexual intercourse in 6 years due to the past trauma against him and learn to be independent.

October 6 2020 - on

Prevented me to go see rheumatology for my inflammation and lied to EMS that I was just on anxiety medication. Nurse practitioner Lynne law Told my employer Valdese weaver about what happened and tried to cover it up. Refused to give me my medical records or anything at all. Change my return to work status from unavailable to months then week and purposefully with one arm yet I need another arm fix. Whenever someone signs my medical release records this

clinic would snitch on me more toward my past employer. I have sent a message reporting them for lies and suffering.

Prescribe medication that causes inflammation and know I have nerve pain by pressing down on my nerve in the palm of my hand. Then refuse to listen to me that I have carpal tunnel because she knew all along about it. Then get mad and grouchy at me and cover it up and refuse to give me my neck when requested and everything. Made it seem like my inflammation was in my head and got to the point where I was misdiagnosed as Chronic Regional Pain Syndrome when it wasn't. I never was able to see a rheumatologist.

9:00 p.m

I first went there and I felt discriminated against for being Asian and young for not being in pain for my disability. I had a nurse claim I had covid and told the elderly patient to not sit near me in that covid section it was awful. I had elderly old patient laugh and mock at me when I was crying extreme pain from the inflammation from prednisone.

FryeCare ER hospital

7p.m

I went to the Fryecare ER because I had blood drip down my leg and it was the same day that my grandpa passed away too. The medical care provider proceeded to touch my stomach and it felt pain and then claim I need to go to a mental hospital and there was nothing wrong with me. I told them the government was going to help me but realized they were against me too later on. I proceeded to run away because they were mean and nasty. I went to Er in Lincolnton, North Carolina atrium health tested me and saw I had inflammation and stuff and nasty infection and put me on Iv fluid.

They claimed that I didn't need surgery for my torn bicep tendon. Laugh and mock at me in pain. Refused to help me get any therapy or anything at all. Forced me to come back to them and stuff. Claim it work related and that I can't use my personal insurance at all. I wasn't able to have surgery because of the EMG nerve study. Doctor Dale Menard and Doctor Bell knew he couldn't help me because of my Employer Valdese Weaver. I was in so much pain due to my chronic fibromyalgia that I wasn't able to distinguish the pain in my arms because of it. I didn't know I have fibromyalgia and so forth until now.

I went to Emergeortho Physical Therapy in Catawba county and came in around 8 am. The front desk clerical looks at each other weirdly and calls management when they see my name Pakuja Vang. Vicki Bass says that I can't come in and I have to pay out of pocket for physical therapy because my insurance can't cover it because it is work related. She told me to put down \$200. I told them I haven't received my disability check yet.

Force me to sign agreement benefit to used it against me. Constantly harassed me. Later find up the policy online until today. I was force to not received any income for 6 month and used up 4 credit cards and stimulus check to relay on that month October 2020- March 2021. It was the one of the most helpless and evil things that I ever felt from everyone. For false claim to tried to get me signed something that wasn't true.

Put false information claiming I had nothing wrong with me on my emg/testing so I could go back to work. Yet multi graph have show something else and numbers. If it was Normal there be no graph data at all. Research this information. The extreme pain and noises of the studies of each needle in my body. The medical assistant was rude and mean and laugh at me in pain. He made fun of me then proceed to the next room laughing and talking to a lady in the next room. Doctor Dale Menard came back and say Doctor Bell should figure out himself and that maybe it inflamed tendon or a pinch nerve. It was awful and the medical board did nothing as well.

I called and recorded Linda Jones from the Carolina Emg in Hickory who deleted my appointment on purpose,

David Dumond didn't do my full test because I was in full pain and claimed he did. He was scared because it was a work injury and it was stressful and painful. He only did one arm and not the other in the recorded statement. I filed a complaint to the board of physician assistant but they later had their own meeting on it. They never really message me or contact me back on it.

I never received my medical records online because they exit me and out stuff. I went to pick up my medication at the healthsmart and they claim I didn't have any order to reduce my inflammation and stuff. He signed my medical release when I begged him not to. Then I did it on purpose where I wasn't able to get proper medical treatment. Then talk bad to me to his upper doctor in

the next room about me claiming I was crazy and laughing at me with him. Then record on his phone about me and stuff thinking I wouldn't even notice about what was going on. False diagnosis of chronic regional pain syndrome. Refuse to do anything with my carpal tunnel or surgery with my spine. Some Doctors told me to not come back to them because I think I will report to the house of special counsel about my insurance issues. They all suggest I go get a rheumatologist in the orthocarolina in Gastonia. The other two have harassed me about having chronic regional pain syndrome when I didn't at all.

I never receive my social security on purpose and they never upload all my medical records on purpose. The Congressman of North Carolina claims he helped me but he never helped me or anything. I had a mental evaluation but not a physical examination.

It has been very difficult being homeless and sick with inflammation constantly. My social security law office Jenifir SKipper purposefully never updated my address and never answered my phone call or even care about my medical care symptoms and just made excuses. I told her multiple times that I don't want them as my attorney and that I figured out that only I can file it and save myself. It's been very frustrating being broke and homeless and fighting for my life. Now making excuses of my work credit when I work since I was 16-23 to the year I been disable.

I tore a bicep tendon which was never properly treated with surgery when diagnosed. It was inflamed constantly with pain when first torn. I tore a partial left wrist tendon.

I have carpal tunnel and elbow tennis in both of my hands. I finally received a steroid injection for carpal tunnel in my left wrist. Wasn't able to receive surgery for my ulnar nerve or carpal tunnel.

Received Occupational Therapy and Chronic Regional Pain Therapy which made it worse.

Pinched nerve in left wrist elbow and neck that became nerve damage. Wasn't able to get surgery right away.

Cervical disc Radiopathy, disc bulge, disc slip. Osteoarthritis in spine, Disc degenerative disease. Vitamin D deficiency, anemic & severe factor was Ehler danlos.

Steroid Injection in the spine and need surgery for a disc slipped which is causing delay.
Spinal root injury.

V. Relief

State briefly what you want the court to do for you. Make no legal arguments. Do not cite any cases or statutes. If requesting money damages, include the amounts of any actual damages and/or punitive damages claimed for the acts alleged. Explain the basis for these claims.

Request money damages for over \$77,000 for all the places for pain and suffering. I want the right to receive all my medical records and the injustice of having it change constantly or a false statement of being misdiagnosed. Consequence of never receiving my medical records or exit it out of my chart and signing my medical release on purpose. I purposefully never receive the correct medical care and delay of proper treatment. I request proper investigation for me and not against me. Right to get medical treatment and no more misdiagnose. Fix credit card, credit score and pay off medical bills for all the places I went to. I want an emergency court hearing in a higher court with the right to have protection and legal assistance. I shouldn't have faced this situation alone and have the right to have an attorney to represent me during my difficult painful journey. A right to get social security without any excuses or delays. The right to have some type of health insurance where I can get medication and treatment or surgery for my ongoing health condition.

The right to make a law or change so that future disabled workers or disabled young human beings don't ever face discrimination and to have a right for protection, income and a lawyer. So many people have died without injustice and suffered greatly to make ends meet.
